PETITION UNDER 37 C.F.R. § 1.47(a) for
FILING OF APPLICATION WHEN A JOINT INVENTOR
REFUSES TO EXECUTE DECLARATION

Hon. Commissioner of Patents
Washington, D.C. 20231

Sir:

In response to the November 28, 2001, Notice to File Missing Parts of Nonprovisional Application in the above-identified application, and due to the refusal of one of the joint inventors, William P. Worzel, to execute the subject application for patent, and pursuant to 37 C.F.R. § 1.47(a) and 35 U.S.C. 116, all of the available joint inventors of the above-identified patent application, Reza P. Rassool and Brian A. Baker, hereby petition that they may make the subject application for patent on behalf of themselves and on behalf of the joint inventor who refuses to join in the application, William P. Worzel.

1. Declaration and Power of Attorney for Subject Application

All of the available joint inventors, Reza P. Rassool and Brian A. Baker, have executed a Declaration and Power of Attorney submitted herewith on their own behalf and on behalf of the nonsigning joint inventor, William P. Worzel. The signature block of the nonsigning inventor was left blank.

2. Statement of Facts Regarding Refusal of the Inventor William P. Worzel to Execute the Declaration

The law firm of Pillsbury Winthrop, LLP (hereafter referred to as "our firm") filed the subject patent application on November 20, 2001. Christine McCarthy (Reg. No. 41,844) of our firm sent Mr. Worzel a copy of the subject application (including the drawings and the claims) and the Declaration on February 25, 2002 by Federal Express (hereafter "FedEx"). A copy of the cover letter accompanying these materials is attached as Exhibit 1. These materials were delivered to the last know address of Mr. Worzel on February 26, 2002. A copy of a web page from the FedEx website confirming delivery to Mr. Worzel's last know address is attached as Exhibit 2.

Nick Holowach (Reg. No. 40,301) of our firm spoke with Mr. Worzel by telephone on or about March 7, 2002. Mr. Worzel acknowledged receiving the application and Declaration, but would not agree to participate in the prosecution of the application by reading the application, or reading and signing the Declaration. Mr. Worzel said he may or may not read the application or read and sign the Declaration, but would not state any time period in which would decide whether or not he would do so. A Declaration by Mr. Holowach attesting to these facts is submitted herewith.

I, the undersigned, sent a letter (attached as Exhibit 3) to Mr. Worzel on March 8, 2002 by FedEx informing him that unless we receive the executed Declaration (and an executed Assignment) from him by March 25, 2002, we would conclude that he refuses to sign the application papers. This letter was sent by FedEx. A copy of a web page from the FedEx website confirming delivery to Mr. Worzel's last know address is attached as Exhibit 4. To date our firm has received no response from Mr. Worzel.

These circumstances establish that Mr. Worzel refuses the execute the application papers.

3. Fee Set Forth in § 1.17(h)

The \$130 fee set forth in 35 C.F.R. § 1.17(h) is enclosed herewith. In the event this fee is insufficient or missing, the Commissioner is authorized to charge said fee to Deposit Account No. 03-3975, our Order No. 20826/280447.

4. Inventor's Last Known Address

The last known address of the sole inventor of the subject application is as follows:

William Worzel
214 West Main Street
Milan, MI 48160

To the best of our knowledge, the inventor is not represented by counsel.

* * *

In view of the foregoing, granting of this Petition, completion of the subject application, issuance of an Official Filing Receipt, and examination of the subject application are respectfully requested.

Respectfully submitted,
Pillsbury Winthrop LLP

Re: U.S. Patent Application of RASSOOL, et al. for
MEDIA TRACKING SYSTEM AND METHOD
Our Ref.: 39600/271178

Dear Mr. Worzel:

At the request of Widevine Technologies, Inc., our law firm prepared and filed a patent application for a Media Tracking System and Method. You were identified and are listed as a joint inventor for that application along with Reza Rassool and Brian Baker. The patent application was filed in the United States Patent and Trademark Office on November 20, 2001. A copy of the application is enclosed for your records.

According to the terms of your employment agreement with Widevine, you are required to assign your rights to the invention disclosed and claimed in this application to Widevine and to assist in the prosecution of the application. Accordingly, we have enclosed a Declaration and Assignment for your review and signature. Please review the application and read and sign the Declaration and Assignment. Please return the executed documents to our offices as soon as possible so that we may file them in the Patent Office. A stamped and addressed return envelope is provided for your convenience.

The Patent Office Rules 56, 97 and 98 require disclosure of any prior art known to be material to patentability and encourage the filing of an "Information Disclosure Statement" within three months of the filing date. This provides a means of complying with the duty of disclosing prior art as required by Rule 56. See herewith pertinent portions of Rules 56(a, b), 97(b) and 98(a). Please advise whether any relevant art is known so that we may act accordingly.

Failure to cite material prior art or related cases at all or even timely could result in the patent being held unenforceable for lack of

Enclosures

DUTY OF DISCLOSURE

Rule 56(a) & (b) (37 CFR 1.56(a) & (b))

(a)...Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the [Patent and Trademark] Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability ... (b)... information is material to patentability when it is not cumulative...and (1) It also establishes by itself or in combination with other information, a prima facie case of unpatentability of a claim or (2) refutes, or is inconsistent with, a position the applicant takes in: (i) Opposing an argument of unpatentability relied on by the Office, or (ii) Asserting an argument of patentability...

INFORMATION DISCLOSURE STATEMENT

Rule 97(b) (37 CFR 1.97(b))

(b) An information disclosure statement shall be considered by the Office [PTO] if filed: (1) Within three months of the filing date of a national application; (2) [or the completion] of the [PCT] national stage...or (3) Before the mailing date of a first Office Action on the merits, whichever occurs last.

Rule 98(a) (37 CFR 1.98(a)) Content of Information Disclosure Statement.

(a) Any information disclosure statement filed . . . shall include: (1) A list of all [items] ...;(2) A legible copy of: (i) Each U.S. patent and foreign patent; (ii) Each publication... and (2) A concise explanation of the relevance, as it is presently understood by the individual...most knowledgeable about the content of...[the] patent, publication, or other information that is not in the English language...

*Quote from MPEP 609 re examples of "concise explanation of relevance":

37 CFR 1.98(a) [Rule 98(a)] calls only for a concise explanation of the relevance of each listed [non-English] item. This may be nothing more than identification of the particular figure or paragraph [or sentence, abstract or claim] of the patent or publication which has some relation to the claimed invention. It might be a simple statement pointing to similarities between the item of information and the claimed invention. It is permissible but not necessary to discuss differences between the cited information and the claims. It is thought that the explanation of relevance will be useful to the examiner and should not be significantly burdensome for the applicant to prepare. A statement to the effect that an item is listed because it was cited during the prosecution of a counterpart foreign application and [that the item] is not considered material to the examination of the U.S. application is to be considered as satisfying the concise explanation requirement of 37 CFR 1.98(a).

[NOTE: No relevance explanation is ever required for English language documents. The requirement for such an explanation for each non-English document can be satisfied by merely filing an English version of a foreign counterpart search report stating a category for the non-English document.]

Re: U.S. Patent Application of RASSOOL, ET AL. FOR
MEDIA TRACKING SYSTEM AND METHOD
Our Ref.: 39600/271178

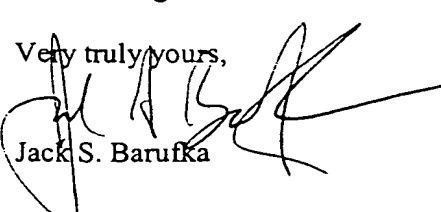

Dear Mr Worzel:

As you know from our previous communications, we represent Widevine Technologies and are currently seeking your help and cooperation in prosecuting the above-referenced patent application before the United States Patent and Trademark Office (the "USPTO") to procure issuance of this application as a U.S patent. Accordingly we sent you a copy of the application (including drawings and claims), a Declaration, an Assignment and a cover letter to you by FedEx on February 25th.

Because we had heard nothing from you since February 25th, Nick Holowach of our office called you yesterday. Unfortunately, you indicated during your telephone discussion that you will give us no assurance that you will cooperate in the prosecution of this application. Specifically, you would give us no assurance that you would read the application or that you would read and sign either the Declaration or the Assignment. Furthermore, you would not specify a time frame in which you would decide whether or not you would read and sign these documents.

Accordingly, this letter is to inform you that, because we face a deadline for filing the Declaration in the USPTO, **unless we receive the executed Assignment and Declaration for the Media Tracking System and Method patent application from you by March 25, 2002, we will conclude that you refuse to sign the application papers.** We will then be forced to continue prosecution of this application without your signature or participation. For your convenience, if you choose to sign and return the Declaration and Assignment, you may fax these signed documents to us at our fax number (703) 905-2500.

Very truly yours,

Jack S. Barufka

OFFICE OF PETITIONS

Rule 56(a) & (b) = 37 C.F.R. 1.56(a) & (b)
PATENT AND TRADEMARK CASES - RULES OF PRACTICE
DUTY OF DISCLOSURE

- (a) ...Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the [Patent and Trademark] Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability... (b) information is material to patentability when it is not cumulative and (1) It also establishes by itself, or in combination with other information, a prima facie case of unpatentability of a claim or (2) refutes, or is inconsistent with, a position the applicant takes in: (i) Opposing an argument of unpatentability relied on by the Office, or (ii) Asserting an argument of patentability

PATENT LAWS 35 U.S.C.

§102. Conditions for patentability; novelty and loss of right to patent

A person shall be entitled to a patent unless--

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for patent or
- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of the application for patent in the United States, or
- (c) he has abandoned the invention, or
- (d) the invention was first patented or caused to be patented, or was the subject of an inventor's certificate, by the applicant or his legal representatives or assigns in a foreign country prior to the date of the application for patent in this country on an application for patent or inventor's certificate filed more than twelve months* before the filing of the application in the United States, or
- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent, or
- (f) he did not himself invent the subject matter sought to be patented, or
- (g) before the applicant's invention thereof the invention was made in this country by another who had not abandoned, suppressed, or concealed it. In determining priority of invention there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

§103. Condition for patentability; non-obvious subject matter

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made. . . .
- (c) Subject matter developed by another person, which qualified as prior art only under subsection (f) or (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.
